**COMMENTS ON STATEMENT OF**  
**REASONS FOR ALLOWANCE**

In response to the Examiner's Statement of Reasons for Allowance attached to the Notice of Allowability mailed May 19, 2004, the following comments are submitted. While Applicants believe that the claims are allowable and patentably distinguish over the prior art, Applicants do not acquiesce that patentability resides in each feature, exactly as expressed in the claims, nor that each and every feature is required for patentability. Applicants submit that patentability is based on the claimed invention as a whole, and not solely on one or more particular features recited in the allowed claims.

Respectfully submitted,

**MORGAN, LEWIS & BOCKIUS LLP**
